Welcome Guide

Welcome to your ISP Toolkit!

Let us help you protect the next generation of internet users! Start by reading and browsing through our ISP toolkit.

This toolkit lead you to the right path in carrying out COSP's provisions by giving you all the information you need as well as guiding you with additional tips geared towards the protection of the next generation of Filipino internet users!

To make sure you're on the right path, here's a breakdown of what each section of this guide contains!

The Child Online Safeguarding Policy - ISP Toolkit includes:

Child Online Safeguarding Guidebook

The guidebook contains relevant information about how to best follow the provisions laid out by the policy as well as tips to effectively put it into action.

Child Online Safeguarding IEC Materials

These sample materials can be printed and posted in different locations to inform people about COSP and the Free WiFi for All Program.

Child Online Safeguarding Captive Portal HTML/CSS Files

This section contains the HTML and CSS files of the Captive Portal, where users are redirected to when they connect to the Free WiFi. It contains the Terms of Agreement and tips on child protection which are approved by the DICT.

Who is this toolkit for?

This toolkit will serve **as a guide for Internet Service Providers** who wish to take part or are already part of the COSP initiative. This will point them in the right direction when carrying out its provisions.

Why should you know this?

The toolkit will help in implementing the mechanisms required by the policy, this will smoothen processes and prevent problems from occurring from people misusing the Free Internet. Most importantly, this will ensure that the users of the Free Internet, especially the youth, will be granted safety and freedom on the web.
